Matted: My pet has areas that are matted. Small matts will be removed without charge. **Splitting and brushing out of moderately matted areas will be charged an additional \$5-\$20 over regular grooming fee. We do not brush out heavily matted pets due to pain and discomfort to your pet.** I understand that heavy matts must be removed by shaving the coat. Abrasions or irritation can be a result of shaving or may be pre-existing under matted areas.

Fleas/Ticks: My pet has fleas or ticks that must be treated during the grooming process. When fleas are detected, a Capstar flea tablet will be administered for a minimal fee. Pets may experience sensitivity to flea/tick shampoos or treatments.

Medical Conditions: My pet may need special attention due to a medical condition. EX: skin allergies, arthritis, blindness, lameness, heart disease, heartworm positive diagnosis or seizures.
